Our families are increasingly under attack and in need of help. Now more than ever, they need healing and nurturing, protection and support. Above all, they need to be grounded in the love, peace and mercy of Jesus Christ. Come and learn:

- the best foundation for raising a holy, happy family.
- how to protect and defend your family from destructive influences.
- simple strategies to reclaim the “lost sheep” of your family.

“The future of the world and the Church passes through the family.”

Venerable Pope John Paul II
